

Sklaverei

Leviathan

Thirteen priests of seven churches and ten thousand
whores
What wonder your slavery
Searing mine flesh with your breath
Bow trembling in your existance
For you I give all
For you I give all
With mine blood I conjure thee forever now your slave
For you I give all
Thirteen priests of seven churches abd ten thousand
whores
Misery is now duty
Oh the glory by your side
Cripple me with your chains
A soul for the fiend
Show me your darkness
Pact and script of secrecy
And traffic with this evil
With this blood I conjure thee forever now in blasphemy
