Stop Right There

Levina

So tall, a bit too blonde
Shouldn’t care what they say about me
Walk fast, talk too low
Unlike anyone around here
And nothing is what it seems, no, no
Don’t trust what you think you see

So unemotional, oblivious to your touch
You think I analyse everything a bit too much
Nothing is what it seems,
All smoke in mirrors, don’t believe

Stop right there, it’s causing too much pain
No trespassing in my brain, my brain, my brain
And stop right there
I got barbed wire in my hair
I can’t care what you think, just gonna do my thing

Just gonna do my thing
Just gonna do my thing
Just gonna do my thing
I can’t care what you think

Oh, so serious
Shouldn’t care what they say about me
Mindless, superficially aware of my own behaviour
I’m cold as ice, I don’t think twice
Oh, nothing is what it seems

Stop right there, it’s causing too much pain
No trespassing in my brain, my brain, my brain
And stop right there
I got barbed wire in my hair
I can’t care what you think, just gonna do my thing

Just gonna do my thing
Just gonna do my thing
Just gonna do my thing

Stop right there, it’s causing too much pain
No trespassing in my brain, my brain, my brain
Stop right there, it’s causing too much pain
No trespassing in my brain, my brain, my brain

Stop right there
I got barbed wire in my hair
I got barbed wire in my hair
I got barbed wire in my hair
Just gonna do my thing
