

# Standing On A Mountaintop

Levon Helm

I'm standing on a mountaintop and lookin' down below  
Feelin' so much love inside, we can watch it glow and glow  
We walk out on a summer's night, we feel so at ease  
We can hear the lonesome wind blowing through the lonesome tree  
s

Oh, let it blow  
Oh, let it blow

Yes, I'm standing on a mountaintop, lookin' down below  
Feelin' so much love inside, we can feel it glow and glow  
We walk out on a summer's night, we feel so at ease  
We can hear the lonesome wind blowing through the sycamore tree  
s

And we can see for miles and miles, time doesn't matter  
We live a life without a worry, we're happy together

Just stand up on a mountaintop look on down below  
Feel all the love that you can feel, stand back and let it grow  
Take some time to feel the breeze, just you and I  
Take some time to watch some clouds, watch the clouds as they g
