

# forever

Lewis Watson

This love has got me running  
And I couldn't see it hiding in her veins  
A hurricane coming  
Didn't mind quiet thunder  
I figured it was something  
I figured it was something I didn't say  
But maybe it was nothing,  
And it would mean nothing if we don't  
Find our way back,  
Find our way back.

To forever, forever  
Next time, come alive  
Forever, forever  
We try, you & I

Watch the bridges burning  
Wishing I could walk the other way  
But I feel the tables turning  
Hidden by a quiet wonder  
I know, I know  
We've been falling backwards  
I know, I know  
We can always start again  
And it's a lesson that we're learning  
But it would mean nothing if we don't  
Find our way back,  
Find our way back, way back.

To forever, forever  
Next time, come alive  
Forever, forever  
We try, you & I

I know we've pressed rewind a million times,  
We've gotta drift in a new direction  
And be forever, forever  
And we try, you & I

Why do I blame it on  
The lack of colour in my head  
Black & white, paint the sky  
Paint it red, paint it red.  
Why do I blame it on  
The lack of colour in my head  
Black & white, paint the sky  
Paint it red, and make me..

Forever, forever  
Next time, come alive  
Forever, forever  
And we try, you & I

I know we've pressed rewind a million times,  
We've gotta drift in a new direction  
And be forever, forever  
And we try, you & I

Next time, come alive  
And we try, you & I
