

roses

Lewis Watson

When you're out there in the cold
Thinking that growing up is getting old
Looking back always knew which hand to fold
But now you've moved on
You're not the
Person that you used to know
But you don't have to do this on your own
Lost in the emptiness you call your home
Just know that over time the

Colours stay
Longer than black and grey
Know that you'll be ok
Forget all the moments
That you were broken
And blamed yourself
Wished you were someone else
Until you cried for help
You are not hopeless
Without rain there's no roses

When you're hiding in the dark
Turn on the light and let the feeling pass
Right now you're living like you're made of glass
Promise in time that all the

Colours stay
Longer than black and grey
Know that you'll be ok
Forget all the moments
That you were broken
And blamed yourself
Wished you were someone else
Until you cried for help
You are not hopeless
Without rain there's no roses

Even in summer
I need the long nights
Of mid december rain
And when it gets colder
I promise I'll keep you warm

Colours stay
Longer than black and grey
Know that you'll be ok
Forget all the moments
That you were broken
And blamed yourself
Wished you were someone else
Until you cried for help
You are not hopeless
Without rain there's no roses
