

## september

Lewis Watson

Closed eyes, hard to see  
Longing for your company  
Don't you hurry, it's only me  
Lied to and then left lonely

When autumn leaves  
I was hoping you'd linger  
All of me's  
Still stuck in September

Deep breath, darker days  
I was your refuge, now you run away  
How can I shout it when it's hard to say?  
Consume and then cast away

When autumn leaves  
I was hoping you'd linger  
All of me's  
Still stuck in September

You fall for me  
Then disappear by winter  
So all of me's  
Still stuck here in September

When autumn leaves  
I was hoping you'd linger  
All of me's  
Still stuck in September

You fall for me  
Then disappear by winter  
So all of me's  
Still stuck here in September
