

silence

Lewis Watson

Wanna talk but it's hopeless
We've got nothing left to say
I just want to hear you speak my name
Heard you found a new stranger?
Have they taken my place?
Are they just another heart you'll break?

They say that pain keeps you going
But I've got nothing underneath
Can't stand for something
When I'm on my knees
Do you still open your windows
When you're trying to sleep?
Are you longing for my company?

Silence
Where did you go?
I was
Waiting for you to call
Violent
Haunted by your ghost
I just
Wanted to let you know

When do I stop being broken?
'Cause to be honest I don't know
If I can I do this when I'm on my own
It doesn't have to be easy
I just hate that it's cold
So help my healing with a hand to hold

Silence
Where did you go?
I was
Waiting for you to call
Violent
Haunted by your ghost
I just
Wanted to let you know
