

Angel

Lexa Gates

Angel

I swear I miss you so much
I'm always craving your touch
And whenever it's just us
My mind that's in a rush stops
Hit me when you wake up
Baby, you're the best drug
I was scared to say love
What was I so afraid of?
Future looking so bright
Heavy feeling so light
You know just how to get me right
Make every night a good night

'Bout to get your name tatted on me in a heart
Might cop you these kicks, bae, I saved them in my cart
Tell me everything, what you doing, you so smart
Always by my side looking like a work of art
Even on your worst day, it's just the way you are
If I had the bread, I would dead buy you a car
If I ever said somethin' to hurt you, I'm so sorry
Lend me sum of ya time, I'll make it up to you tomorrow
I know what you like, baby, we could do it all
I know what you like, baby boy, I'm just a call
You the only one, so I let you hit it raw
You the only one make me run to the door
Even when I'm mad, I'll respond, I can't ignore you
Okay, that's a lie, if I'm bugged, that is not true
I just need a hug, reassure me you not stupid
Feeling like I got shot with a Glock by Cupid
Feeling like I'm in a dream but awake, I'm lucid
If I ever lost you, I would fucking lose my mind
Know too many people swear you're one of a kind
Sorted through the city, baby you was hard to find
I'm the type, addicted to that shit I can't define
Seriously, you're special though, I'll let you skip the line
Basically belong together, let me call you mine
I want this forever, baby, I want you forever (Forever)

I swear I miss you so much
I'm always craving your touch
And whenever it's just us
My mind that's in a rush stops
Hit me when you wake up
Baby, you're the best drug
I was scared to say love
What was I so afraid of?

Hold me (Hold me), hold me (Hold me)
Show me the world owes me
Only (Only), only (Only)
You're on my mind, trust me
Always (Always), always (Always)
Wish you were here with me
Well what, ever
Well what, ever
I swear I miss you so much

I'm always craving your touch
And whenever it's just us
My mind that's in a rush stops
Hit me when you wake up
Baby, you're the best drug
I was scared to say love
What was I so afraid of?
