Lexa Gates

Do-do not

Do not fuck with me  
You caught me on a more bright day luckily  
And every beauty's got some slight butt ugly  
Tell me why I feel like everyone is rushin' me  
No, I won't cry, I'ma just sit here with a stank face  
Leavin' everything I am all over the place  
I'm tryna eat, but it's flies touchin' my plate  
You're lookin' right into my eyes and sayin' I'm great  
So I don't know if any lies are slippin' my mind  
I'm tryna think, but it's some shit like all of the time  
Feel I probably had to go an hour ago  
Sip espresso in the heat, then it's cold  
And I love you, but you know I live on the road  
Wanna walk through the snow, the grass, and the street  
Get pains in my feet, grit my teeth  
What's the point of even tryin'? Facin' defeat  
Well, well

Victory is sweet, life is a game  
I'm the only one to blame  
If it's all the same, change  
Change, change

Uh, don't be a pussy, what you mean you don't want to?  
Climbin' all up to the top, what I gotta do  
We know the Earth don't stop, yeah, it's nothin' new  
I'm really focused on my ish, got me seemin' rude  
Get your camera out my face, I'm not in the mood  
Askin' questions 'bout my race, what my daddy do  
Make me wanna catch a case, let me not get crude  
I got a bottle full of mace and a blicky too  
Really, I'm just still myself, scared of everyone  
Thinkin' of the last time that I opened up  
I told you everything, you don't even give a fuck  
I'm tired of people movin' stuck, livin' in a rut  
What's the case? Do you really want it all or what?  
What? What?  
What's the case? Do you really want it all or what?  
What?  
Well, well

Victory is sweet, life is a game  
I'm the only one to blame  
If it's all the same, change  
Change, change
