

# Could've Had It

Lexa Gates

While I have the chance to speak  
I'd like to say, we

Could've had it all, yeah, yeah  
I fall too easy, baby  
I fall too easy  
It's no wonder you're leaving at all  
Could've had it all, yeah, yeah  
But I fall too easy, baby  
I fall too easy  
It's no wonder you're leaving at all

If only I could be the kind of girl that you expected me to be  
To love from such a distance is unbearable to me  
I'll follow you into your darkest corners, may I see or no?  
With hands around my neck, you kiss me hard  
And make it harder to let go  
I know what role to play, you're making me put on a show  
I wish that I could run, but you're the only thing I know (I know)

We could've had it all, yeah, yeah  
But I fall too easy, baby  
I fall too easy  
It's no wonder you're leaving at all

We could've had it-  
We could've had it all
