

We need a savior  
I'm getting tired of this frivolous behavior  
And I could get it done, make it, do a favor  
You could thank me now, later  
Stop living in the past like a traitor  
Know I only got today  
Watch face, fade away  
'Cause the bills ain't gon' pay the bills  
But my will has to stay

All I got's a name and a bag full of bullshit  
Crib full of cash in the boonies for my lil' bro  
Hoes tryna ask me for what, nah, hell no  
I don't even get nothing for free, it's all promo

And I don't know if I'm doing anything right  
Or if I was really even cut for this life  
Tryna focus on the good and delight  
Might stay inside my room all night  
Make a mess until my red-eye flight  
Keep the future in sight get whatever I'd like?  
That's the point of this? Ight, ight

There's nothing left  
I'm half full  
Can't cancel  
Just touched down  
I'm all in  
It's nothing  
Not for me, for me  
Not for me

I wanna understand, I don't  
I wanna understand, I don't  
I wanna understand, I don't  
I wanna understand, I don't

Plus, I'm insane  
Glass breaks, pots clash in my brain  
I could barely control what I'm saying  
But things won't stay the same  
Keep thuggin' through the pain  
Praying, you know?  
You know

There's nothing left  
I'm half full  
Can't cancel  
Just touched down  
I'm all in  
It's nothing  
Not for me, for me  
Not for me
