

Lover

Lexa Gates

The cats keep scratching up the walls
I fall deeper in it every time you call
Me no feel no fear at all, nah
Fear of God, bae, it's a new era
Get your era, era outs my head
And pull through later, hop into my bed instead
I got so much on my mind, wish I could tell you

Complicated, self-medicated
So patient, I'm still waiting
I want to talk to you just like I used to
Love, is it over? No
My mind says nobody gets it like you
And I'm so alone now, oh
Seems like it doesn't matter what I do
Love, is it over? No
My mind says nobody gets it like you

I know I gotta change it
How? But how? Oh
I know I gotta change it
How? But how?

The cats keep scratching up the walls
I fall deeper in it every time you call
Me no feel no fear at all, nah
Fear of God, bae, it's a new era
Get your era, era outs my head
And pull through later, hop into my bed instead
I got so much on my mind that I wish I could tell you

Cleaner than the Lysol
Sneaking like some pythons
Kissing with the lights on
Tell me all your deep dark secrets that you don't speak
Promise that I'll keep them better than you did
Show me what you're made of
Who am I to judge that? I know you're an angel
I'll pass you an ice pack when I rip your wings off
Promise that I'll keep them better than you did

Promise, promise, promise
Promise, promise, promise
