

Gasoline

Leyla Blue

You can hide behind your screen
Ignore those texts I know you've seen
Go head and try, get rid of me
It's only gasoline

Nice try
Push me away, I'll drown
Myself in your blue eyes
They're all I been thinking bout

Cause first you don't answer
And I'm impressed
Play with my feelings
Now I'm obsessed
Boy you can run
But whatever I want
I get

You can hide behind your screen
Ignore those texts I know you've seen
Go head and try, get rid of me
It's only gasoline

Light me up like nicotine
And boy I'll stay like evergreen
Go head and try, get rid of me
It's only gasoline

No show
Said that you'd be here at 9
But I'm sitting here
Solo
Sipping on this fancy wine
But when I mix feelings with a Bordeaux
Molotov cocktail 'bout to explode
Better be careful, playing with fire
Cause I'll blow

You can hide behind your screen
Ignore those texts I know you've seen
Go head and try, get rid of me
It's only gasoline

Light me up like nicotine
And boy I'll stay like evergreen
Go head and try, get rid of me
It's only gasoline

Don't stop running
Don't stop running from me
Drive me crazy
I'll be your passenger seat
Don't stop running
Don't stop running from me
Cause if I'm not chasing
I'm bored

You can hide behind your screen
Ignore those texts I know you've seen
Go head and try, get rid of me
It's only gasoline

Light me up like nicotine
And boy I'll stay like evergreen
Go head and try, get rid of me

You can hide behind your screen
Ignore those texts I know you've seen
Go head and try, get rid of me
It's only gasoline

Light me up like nicotine
And boy I'll stay like evergreen
Go head and try, get rid of me
It's only gasoline
