

## Sky High

Lia

There's a place to go Where no man's ever gone before  
A place where we can be alone  
We can be ourselves Be free forever

If you want to go Just hold my hand and we will soar  
Above the sky we'll fly so high  
Coz you and me Belong to be together

Up and away I'll take you higher  
Close your eyes We're on our way  
Don't let the clouds get in the way

We'll dance with all of the stars  
As we go higher You and I  
We'll reach the top Together we will zoom away  
To heaven

And when you need to go  
And find a place you can stay  
Where you can be who you are  
You just call me I'll be around for you

It's not impossible Yes we can disappear from here  
Oh it's my dream to have you near  
Let me sweep your feet off the ground

Please let me take you way above the sky  
Far away You will be there  
someday If you let me I'll take you now

And when you feel it's time  
That we should fly up so high  
Just close your eyes and say  
Let's go and touch the moon today
