

Greedy Soul

Liam Gallagher

I'm going toe-to-toe
With a greedy soul
He's going down in nine
Gonna be out a while
She got a six six six
I got my crucifix
She got a spinning head
She's the ungrateful dead

You're getting told
You greedy soul
You've been telling lies
The slippery kind

And it's a long way down
When you're the wrong way round
And now it's all too much
I've got the Midas touch

They're digging me for gold
Well if the truth be told
You got your kiss and tell
I hope you go to hell

I'm going ropey dope
You think I'm giving up
I got a rhino hide
Don't give a fuck, alright?

You're getting told
You greedy soul
You've been telling lies
The slippery kind

And it's a long way down
When you're the wrong way round
And now it's all too much
I've got the Midas touch

And it's a long way down
When you're the wrong way round
And now it's all too much
I've got the Midas touch

And it's a long way down
When you're the wrong way round
And now it's all too much
I've got the Midas touch
