

## I Get By

Liam Gallagher

No one loves like you do  
I'm all messed up but I'm over you  
I see your face can lead your mind  
I contemplate, scrutinize

Well, I get by  
It's only love, only love can break my heart  
Only love, this thing will tear us all apart  
Only love, only love can break my heart  
Only love, this thing can tear us all apart

It's in my life, it's in your hands  
There's no love lost, sycophant  
Well beam me up, beam me down  
I'll show you love, I'll show you round

Well, I get by  
'Cause only love, only love can break my heart  
Only love, this thing will tear us all apart  
Only love, only love can break my heart  
Only love, this thing can tear us all apart

Never look back, and go where you're going to  
I waited a lifetime for you  
So cut me some slack, I wanna see all of you  
I never hold back from the truth

Never look back, and go where you're going to  
I waited a lifetime for you  
So cut me some slack, I wanna see all of you  
I never hold back from the truth

Never look back, and go where you're going to  
I waited a lifetime for you  
So cut me some slack, I wanna see all of you  
I never hold back from the truth

Unlike you  
Unlike you  
Unlike you  
Unlike you
