

World's In Need

Liam Gallagher

It's calling me
It's calling you
Listen up
Let's get to
I need a sign
For peace of mind
The world's in need
Send Godspeed

All I wanna do
Is run away with you
Sail the seven seas
Live a life of ease
Come on baby blue
I'm waiting here for you
I see it in your eyes
I see it when you smile
It's a love that never dies
A love that never dies

Whatever happened to
The world we knew
Now it's full of drips
And phoney health tips
Oh, I need a break
Where there's no snowflakes
Oh, I need sunshine
And I'll be fine

All I wanna do
Is run away with you
Sail the seven seas
Live a life of ease
Come on baby blue
I'm waiting here for you
I see it in your eyes
I see it when you smile
It's a love that never dies
A love that never dies

And we're all crazy now
We're back on top
We'll never let you down
And we're all crazy now
We're back on top, never stop
We'll never let you down
We're back on top, never stop
We'll turn the world around

All I wanna do
Is run away with you
Sail the seven seas
Live a life of ease
Come on baby blue
I'm waiting here for you
I see it in your eyes
I see it when you smile

I see it in your eyes
I see it in your eyes
It's a love that never dies
A love that never dies
