Before It Ends

Liam Payne

It's the end of the night
There's no time for talking
And I know it ain't right
But I see where it's going

'Cause we been running 'round in circles now for days
There's something different 'bout the way you call my name
And I don't wanna fight with the one I'm loving

So why do I always lose?
Before it, before it ends
So why do I always lose?
Before it, before it ends

We can't find the love
We don't know how we lost it
When we both get it wrong
And we don't know what caused it

'Cause we been running 'round in circles now for days
There's something missing in the way you call my name
We both lost the love
We don't know how we lost it

So why do I always lose?
Before it, before it ends
So why do I always lose?
Before it, before it ends

Love's not lost if you still feel it
But faiths not gone if you believe it
You're never mine till the end of the night
We're not innocent till we both see it

Why do I always lose?
Before it, before it ends
So why do I always lose?
Before it, before it ends
So why do I always lose?
Before it, before it ends
Before it, before it ends
