Down

Liam Payne

Take your time before you take it off
Girl you know what you do
Intoxicated by the way you touch
And the way you move

Finally got you to myself
I don't need anybody else

Oh baby put it down on me
Down on me
Oh baby put it down on me
Down on me
This song about the way it feels
Oh, when I touch your body
The way you're ready let's get it started
So put it down on me
Down on me

Yeah, put it down on me (whoo)
Oh, oh just put your love on me (whoo)
Said baby put it down on me (whoo)

Don't try too hard to fight the intentions
Of all the things that we're about to do
Let me help you to make this real simple
I won't complicate it for you

Finally got you to myself
I don't need anybody else

Oh baby put it down on me
Down on me
Oh baby put it down on me
Down on me
This song about the way it feels
Oh, when I touch your body
The way you're ready let's get it started
So put it down on me
Down on me

Yeah put it down on me (whoo)
Oh, oh just put your love on me (whoo)
Said baby put it down on me (whoo)
Oh, oh just put your love on me (whoo)
Said baby put it down on me

Yeah put it down on me (whoo)
Oh, oh just put your love on me (whoo)
Said baby put it down on me (whoo)
Oh, oh just put your love on me (whoo)
Said baby put it down on me
