

# Sunshine

Liam Payne

You're like a sunshine  
Only giving good vibes  
Any, any time that you roll in  
Pulling me out  
Never letting me down  
And I wanna make sure you know it  
You're like a sunshine  
Only giving good vibes  
Any, any time that you roll in  
Can't believe that I found my sunshine

Hey  
Everyone's trying to be the same  
Till I met you I was on that wave  
But you really on something different  
You do you it must be nice  
And I think it's rubbing off on me

Oh yeah, step to the left  
Step to the right do what you want  
What really matters is the journey that we're on  
Yeah, riding with you, I finally know where I belong  
I belong

You're like a sunshine  
Only giving good vibes  
Any, any time that you roll in  
Pulling me out  
Never letting me down  
And I wanna make sure you know it  
You're like a sunshine  
Only giving good vibes  
Any, any time that you roll in  
Can't believe that I found my sunshine

Oh, I was feeling so invisible  
I didn't know this could be possible  
But you really on something different  
You do you just work it out  
And I think it's rubbing off on me

Oh yeah, step to the left  
Step to the right do what you want  
What really matters is the journey that we're on  
Yeah, riding with you, I finally know where I belong  
I belong

You're like a sunshine  
Only giving good vibes  
Any, any time that you roll in  
Pulling me out  
Never letting me down  
And I wanna make sure you know it  
You're like a sunshine  
Only giving good vibes  
Any, any time that you roll in  
Can't believe that I found my sunshine

You're like a sunshine  
Only giving good vibes  
Any, any time that you roll in  
Pulling me out  
Never letting me down  
And I wanna make sure you know it  
You're like a sunshine  
Only giving good vibes  
Any, any time that you roll in  
Can't believe that I found my sunshine

You're my sunshine  
Only good vibes  
You're my sunshine
