

## Absence Blooms

Liars

It's that time again  
It's that time again  
When I hold you underwater  
And you tell me I'm your friend

It's that time again  
It's that time again  
When I hold you underwater  
And you tell me I'm your friend

Won't you help me understand?  
Won't you help me understand?  
Won't you help me understand?  
Won't you help me understand?  
Won't you help me understand?  
Won't you help me understand?  
Won't you help me understand?  
Won't you help me understand?

It's that time again  
It's that time again  
It's that time again  
It's that time again
