

## Annual Moon Words

Liars

Our last boat refused to arrive  
Our last hope we live to die  
So what i'll know  
So what i'll know just how  
Just how we'll say goodbye

Take my hand into your own  
Moonlight every inch you row  
The only way to break and see  
Take my hand into your own

Theres nothing else understand  
We can't get further than here  
I can't get here on my own  
It's so much farther than  
It's much better than that

I'm on the way down  
I'm on my way now
