

Drop Dead

Liars

When we concentrate on far away
And safely worlds break up in two

They'll [?] some changes I have made
I'm dying, I'm diving into

Well guidance is waiting
And I'd like to think that I will too

Crush all the knowledge and reason 'til you fall down [x2]

Wishing for the right time
Make believe becomes real life

The silence ends, fall from grace
Let the silence end, let's fall from grace [x2]
