

Staring at Zero

Liars

Why can't you shoot me through my heart?
Why can't you tell me where the ace is from?
We both were broke right from the start
Why can't you shoot me through my heart?

Just test this a little bit
Keep space for a minute
Just test this little bit
Keep space for a minute

Why can't you shoot me through my heart?
Why can't you tell me where the ace is from?
We both were broke right from the start
Why can't you shoot me through my heart?

We're sometimes literate
Then sometimes not
We're your take-home vitamin
Mostly not

We broke my faith in things we could have left behind
We both think every night we get our atlas tutor
We both became the thing we would have killed before
We both maintain complaining from the mountainside
