

Sing the story

Libera

Sing the story of the glory
In stable cold and dark came the miracle
Wonderful miracle, the redeemer of us all

Sing the story of the glory
In stable cold and dark came the miracle
Wonderful miracle, the redeemer of us all

Bleak the night as we come to worship you
Guard us on our way
Hard the road as we bring our gifts to you
Help us on we pray

Shining like silver the stars in the sky
Lead us to Bethlehem
Streaming from heaven the angels on high point
Us to Bethlehem

Sing the story of the glory
In stable cold and dark came the miracle
Wonderful miracle, the redeemer of us all

Sing the story of the glory
In stable cold and dark came the miracle
Wonderful miracle, the redeemer of us all

Bleak the night as we try to follow you
Guard us on our way
Hard the road as bring our lives to you
Help us on we pray

Shining like silver the stars in the sky
Lead us to Bethlehem
Streaming from heaven the angels on high point
Us to Bethlehem

Sing the story of the glory
In stable cold and dark came the miracle
Wonderful miracle, the redeemer of us all

Sing the story of the glory
In stable cold and dark came the miracle
Wonderful miracle, the redeemer of us all

Sing the story the wonderful miracle
Sing the glory of love evermore
