

Take Me Home

Liberty X

See your face as I walk into the club
Catch your eye for a second long enough
I know you got it going on tonight
But what you're searching for ain't hard to find

(Want you up)
On my body body
Make me want it want it
Get me hot I gotta dance tonight
(Want you up)
On my body body
Make me want it want it
Get me hot I gotta dance tonight

You got that look
Come on girls you know you want this
All you boys you got to own it
One more hit on the dancefloor tonight
You got that look
Send my body into fever
Feel the rhythm taking over
One more hit on the dancefloor tonight
Then you're gonna take me home

You don't understand
You know I won't respond to your advance
'til we hit the floor
You gotta have the moves if you wanna dance
We can take it slow, but boy you gotta know
When to work harder, make me wanna, take you home
Ooh baby come on

(Want you up)
On my body body
Make me want it want it
Get me hot I gotta dance tonight
(Want you up)
On my body body
Make me want it want it
Get me hot I gotta dance tonight

I don't know
How to say
The kinda words to make you
Believe my intentions are good
But you're so bad
I only wanna
I wanna show you a good time tonight
Come on home
Don't be shy
Be yourself
Cos you blow my mind
Cos you're so fine
Come on home
Be my girl tonight

(Want you up)

On my body body
Make me want it want it
Get me hot I gotta dance tonight
(Want you up)
On my body body
Make me want it want it
Get me hot I gotta dance tonight
