

BUMPIN

Lido

Whose eyes
Now I know why I can't describe
Maybe the sun gave you light
Maybe the sun made you blind
Choose wise
Now you know why you can't decide
Maybe the sun... let you shine
Maybe the sun got you blind

And I'm bare
I barely know how you summoned
You didn't ask
You just come in
And then you walk in disguise
And I care
I can't lose another
I meant to say something sooner
They say death do us part

Bumpin
See you bumpin
Bumpin mmm
I saw it coming
Sudden how you come in
All these other options
Why you gotta bump in
Oh why you gotta bump in to me
Oh why you gotta bump in to me
Oh why you gotta bump in
All these other options
Why you gotta bump in to me
Oh why you gotta
Oh why you gotta

I guess I'm hung up on far away
Know that's a long time
I got a lion not a reptile
I wanna run it by you
This could be a sign or a satellite
Either way I'm up high
I'm high enough to see the world's eye
And now I got the full view

And I'm bare
I barely know how you summoned
You didn't ask
You just come in
And then you walk in disguise
And I care
I can't lose another
I meant to say something sooner
They say death do us part

Bumpin
See you bumpin
Bumpin mmm
I saw it coming

Sudden how you come in
All these other options
Why you gotta bump in
Oh why you gotta bump in to me
Oh why you gotta bump in to me
Oh why you gotta bump in
All these other options
Why you gotta bump in to me
Oh why you gotta
