

Caroline

Lido

Caroline
I can't breathe, breathe when I'm around you
Caroline
I can't be, be myself alone
Caroline
I can't see, see myself without you
Caroline
Won't you please let me take me home

The ceiling's just a floor you under
Turn it all around and nothing's changed
The ocean's only drops of water
Break it all down and it's all the same
The quiet is so loud
The pair of us is a paradox
And I put that on everything
I put that on you

Caroline
I can't breathe, breathe when I'm around you
Caroline
I can't be, be myself alone
Caroline
I can't see, see myself without you
Caroline
Won't you please let me take me home

My greatest necessity
I chased you away, away
Took away all of my needs
Can't let you stay, stay
Caught my eye, you blinded me
Like a bright light
Stuck in my vision when I look away
Leaves me two choices
Give her everything or have nothing at all
Either way I'm gone

Caroline
I can't breathe, breathe when I'm around you
Caroline
I can't be, be myself alone
Caroline
I can't see, see myself without you
Caroline
Won't you please let me take me home

I don't care alone
I Caroline
