Man, hold up, she say she want me back  
Headbang this heartbeat and goosebump this track

I gave my soul to you  
Told everybody, so did you  
Truth is  
Your loving is so ruthless  
Mascara-stains and truces  
More lipstick on my bruises  
My heart is saying I love you  
My brain is saying you dumb as hell  
You bet it all, you wanna fail  
I testified and got thrown in jail, aah  
My guard is down, my gates are open  
The sun is up, and my shades are broken  
You cut me out and your blades are stroking, aahh  
I'm faded, girl, you got me faded  
Since you left the pain has faded and I miss it and I hate it  
And now  
She says she want me back  
Headbang the heartbeat, goosebump the track, tell me why I

Cut my lips while kissing you  
Skin is turning black and blue  
It's resisting touching you  
Flinch whenever you are near  
Legs are locked, I go nowhere  
I should leave but do not dare  
Feel my heart, it's hardening  
And as you strike it yet again  
I'm colder  
But it's like I've learned nothing  
I'm breaking down my own defence  
I'm colder

You dropped another bomb on me  
Asked me how it feel  
Said you would go to war for me  
But you don't keep it trill  
(Chain gang, homie, staying sane over everything)  
There's nothing no one can tell us  
You joke that you jealous, float my boat and revoke the propellers  
Coping and hoping is choking as well as  
Stroking repell us  
I hope they won't fail us  
As I open up broken umbrellas  
Now let it rain, let it rain  
Pray the water maybe wash away the pain  
Howcome there's only good memories in my brain?  
Top back screaming money ain't a thing, yeah I need that  
Her tender touch keep rippin off my bandages  
We're loving it like savages  
But my body can't take half of this, aah  
You love this here, don't you?  
I should be proly gone after what we gone through  
But the matter of the fact is that I want you  
And now I get a text on my phone where

She says she want me back  
Headbang the heartbeat, goosebump the track

Cut my lips while kissing you  
Skin is turning black and blue  
It's resisting touching you  
Flinch whenever you are near  
Legs are locked, I go nowhere  
I should leave but do not dare  
Feel my heart, it's hardening  
And as you strike it yet again  
I'm colder  
But it's like I've learned nothing  
I'm breaking down my own defence  
I'm colder

Man, hold up, she say she want me back  
Headbang this heartbeat and goosebump this track

(Sometimes in life you feel the fight is over)
