

Committed

Lido

Can we go back to the beginning
Pick back up where we finished
'Cause I still fuck with you
It's been a minute
Girl I was tripping
But I still fuck with you

Late last night had a vision
And I ain't one for reminiscing
But I wonder what's new with you
If he's broke I can fix it
Your boy a magician
You know how I do
Just get in position
Girl you know what you're missing
I still fuck with you

I know why you did it
I know you're committed
Yet still I fuck with yo
Please let me finish
I don't mean to diminish
That's why I'd never make you choose

Why you wasting time
Girl, come fuck me right now
Right now
It's obvious there's enough to go around
