

## Flaws

Lido

I can't believe you love me  
With all of my flaws  
And my insecurities  
I can't believe you want me  
When all that I've got  
Is all that you've given me

I really like the part that separates your core from your aura  
They try pushing us apart  
When they know what we really need is more love  
(More love)  
It's just me and my purpose now  
Nothing can hurt us now  
I might change it all for you  
Might hang up my call for you  
I might take the fall for you  
Break down any wall for you  
I can't believe

I can't believe you love me  
With all of my flaws  
And my insecurities  
I can't believe you want me  
When all that I've got  
Is all that you've given me

I need you to feel this  
Mercy and forgiveness  
Please don't mind your business so damn much  
They said it would be impossible  
But here you are  
No matter what is keeping you down  
It might be fountains and fountains of doubt  
It might be something that numbers can't count  
It might be rain storms, it might be drought

No matter what it is I know I'm not in control  
I am but a vessel, I am but a flow  
I am never lonely when I am alone  
I know that your love is unconditional  
I can't believe you love me
