Not Enough

Lido

Whatever I do for you, girl, it's still not enough
Wherever I take your ass, seems like you startin' somethin'
Should've known what we got into before we started fuckin'
Try to play by your rules, but it's still not enough

Girl you got me buggin', I can't front
Everythin' I do is not enough for you
Know that I've been tryna keep it cool (ooh yeah)
But I ain't got no patience to put up with you

I find it difficult to try and say
Sometimes you make me feel some type of way
Sometimes I need a little time and space
I try, but I still feel like I can't please you

Whatever I do for you, girl, it's still not enough
Wherever I take your ass seems like you startin' somethin'
Should've known what we got into before we started fuckin'
Try to play by your rules, but it's still not enough

Du-du-du, not enough
Du-du-du-du, not enough
Du-du-du-du, not enough
Not enough for you
Du-du-du, not enough
Du-du-du-du, not enough
Du-du-du-du, not enough
Not enough for you

Know that one chick, that thinks she's so bad
That she don't listen just run her mouth
She keep on thinkin' you owe her somethin'
You think you might have to cut her out
Shit got you like...
Huh, I don't need it anyway
She was probably cheatin' on me anyway
Still let a nigga hit it any day
Shawty I don't games, I ain't tryna play

I find it difficult to try and say
Sometimes you make me feel some type of way
Sometimes I need a little time and space
I try, but I still feel like I can't please you

Whatever I do for you, girl, it's still not enough
Wherever I take your ass seems like you startin' somethin'
Should've known what we got into before we started
Try to play by your rules, but it's still not enough

Du-du-du, not enough
Du-du-du-du, not enough
Du-du-du-du, not enough
Not enough for you
Du-du-du, not enough
Du-du-du-du, not enough
Du-du-du-du, not enough
Not enough for you

All that noise that you're makin' over there
Just take it over there, take it over there
Shawty got problems, she can take it over there
Take it over there, just take it over there

All that noise that you're makin' over there
Just take it over there, take it over there
Shawty got problems, she can take it over there
Take it over there, just take it over there

All that noise that you're makin' over there
(I ain't buying no flowers)
Just take it over there, take it over there
(She too used to Godiva)
Shawty got problems, she can take it over there
(I need me a Mariah)
Take it over there, just take it over there
(Mariah or Seniah)

All that noise that you're makin' over there
(Like the type that I'd die for)
Just take it over there, take it over there
(What the fuck do I try for?)
Shawty got problems, she can take it over there
(What, forgot that I lie for)
Take it over there, just take it over there
