

People

Lido

Started for nothing
No where

Well go and hit a little two-step
Side to side
Don't fail me now
My people don't fail me now
Oh come on baby would it kill ya
To go and take a little sip
We don't want somethin' for nothin'
We'll take you on a little trip
Well go and hit a little two-step
Even if you just hit the loud
People, don't fail me now
My people don't fail me now
Oh come on baby would it kill ya
To go and take a little sip
We don't want somethin' for nothin'
We'll take you on a little trip
Well go and hit a little two-step
Even if you just hit the loud
People, don't fail me now
My people don't fail me now

Oooo...
Ba da ba ba
Ba da ba ba

J'von, yeah
What, what, what, what, yeah
Flew through to Malibu, two brews preppin'
Too few crews reppin', deuce two-steppin'
But as soon as you stepped in (wow)
It was us too destined
I ain't even checking who checkin (fuck that)
Everybody loose but I'm too loose stressin
Brand new shoes like, ooh you flexin'
Checkin', they be like see me
Face said "Love me"
Legs said "Eat me"
Tryna sober up I breathe deeply
Yeah, spirit I awake you
Been here all night
It's kinda late too
And it's you that I relate to
What would Drake do
It's a celebration
Clap, clap, bravo
I ain't going, front
I had like half that bottle
But we all feeling it
And this all of 'em in the building
We're killing it

Oh come on baby would it kill ya
To go and take a little sip
We don't want somethin' for nothin'

We'll take you on a little trip
Well go and hit a little two-step
Even if you just hit the loud
People, don't fail me now
My people don't fail me now
Oh come on baby would it kill ya
To make it back home slip
We don't want somethin' for nothin'
We'll take you on a little trip
Well go and hit a little two-step
Even if you just hit the loud
People, don't fail me now
My people don't fail me now

Oooo...
