

Pillows

Lido

Baby, lately we've been getting way too loud
All the neighbors been telling us we gotta keep it down
I been out here gettin' these decimals
And when I get home got you making decibels
I like you in the red, when I put that ass to bed, oh
You gonna get us kicked out with that moaning
Found a note on the door this morning
Saying that you better keepin' the baby up
Sound like a house with a maniac
Is everything okay? Signed Richard and Jane

Oh, wow girl, you're so loud
You gon' have to bite this pillow
Bite this pillow
Face down, shut up, pipe down
You're gon' have to bite this pillow
Bite this pillow

Baby, you need to put something in your mouth
Know what I'm talking 'bout
All this screaming and creaking
And banging and clanging and moaning and groaning
Till the early morning
You're waking up the whole entire house
Gotta cut it out
Girl you so addicted, we gonna get evicted
You shattered all the windows in the room
Last time I licked it
I gotta crushin' for the pushin'
Cause you're cussing
When I beat it like percussion

Uh wow girl, you're so loud
You're gon' have to bite this pillow
Bite this pillow
Face down, shut up, pipe down
You're gon' have to bite this pillow
Bite this pillow

Feathers everywhere, feathers every fucking where
Like this, come here

(Have you ever tasted the load before
Had a wish for polyester
Like cotton, silky satin
Work that magic, so they don't hear you)

Uh wow girl, you're so loud
You gon' have to
