

# Recruit

Lido

I'm not tryna make it obvious  
I'm tryna explain but they all watching us  
Prefer if we keep it on the low  
But since you in the mode  
I say fuck it here we go  
All night I've been watching  
Can't control my thoughts  
My head got a mind of its own  
I can't help but make it obvious  
But since I'm in the mode now  
Fuck it

I'm just tryna recruit  
Can you bring a friend too  
Baby, bring a friend too  
Girl you know I got room  
Cause I'm tryna recruit  
Baby, bring a friend too  
One for me and one for you  
We can start our own crew  
For the love  
For the pain  
Through the walls  
Penetrate

You can be my recruit if you bring a friend too  
We can start our own crew  
Yeah, Yeah

I'm just tryna recruit  
I'm just tryna recruit  
Yeah, you know I got no limit  
More the merry the few  
It ain't called the passion palace for nothing  
What you assume  
I got models with bottles  
Packed from the basement to the roof  
Watch your shoes

Champagne got you feeling woozie  
But this pair cost a check, girl you know got my attitude  
I could get rude  
But that's not what I wanna do  
So grab a partner do-si-do to my room  
If I approve

I'm just tryna recruit  
Can you bring a friend too  
Baby, bring a friend too  
Girl you know I got room  
Cause I'm tryna recruit  
Baby, bring a friend too  
One for me and one for you  
We can start our own crew  
For the love  
For the pain  
Through the walls
