

She Cried Ice (Interlude)

Lido

Her skin is like snow
Her touch got me frozen
These rivers so cold
She got me walking on water

Tracing footprints, like where did we go wrong?
But the fire has been gone for way to long
She cried ice for me
I'm so cold

In the middle of the winter time
She skidded and committed crime
And every minute that she been mine
Asked myself and admitted that I didn't mind

Tracing footprints, like where did we go wrong?
But the fire has been gone for way to long
She cried ice for me
I'm so cold
