

SIGNAL

Lido

Fall to her knees
Told me all of her needs that she needs
I got you
Call for my love when you need something other than him
If I needed your help to come home I'd be homeless
But I already know this
You know you was made for this moment
Lay your frame on my bed in the storm
We was made for this moment

Send me a signal when we're done
Send me a signal when we're done
Send me a signal when we're done
Send me a signal when we're done
