

Simple

Lido

I told shawty that I never thought we would ever be cool again
I told shawty that I never thought we would ever be cool again
But here we are on the same damn couch that we sat on like three years ago

When you told me that I was the one that you would never cheat on

I told shawty that I never thought we would ever be cool again
I told shawty that I never thought we would ever be cool again
But here we are on the same damn couch that we sat on like three years ago

When you told me that I was the one that you would never cheat on

Everytime that I'm around you everything just turns so simple
So simple

Everytime that I'm around you everything just turns so simple
So simple

I told shawty that I never thought we would ever be cool again
I told shawty that I never thought we would ever be cool again
But here we are on the same damn couch that we sat on like three years ago

When you told me that I was the one that you would never cheat on

Everytime that I'm around you everything just turns so simple
So simple

Everytime that I'm around you everything just turns so simple
So simple

I love you, I love you
I love you, I love you
I love you, I love you
I love you, I love you
I love you, I love you
I love you, I love you
I love you, I love you
I love you, I love you
I love you, I love you
I love you, I love you
I love you
