

Led you on, I wish I hadn't met you yet
Led you on, I wish I hadn't met you yet

Head on my thigh, said you been trying to get it right, day and night (You and I)
Ahead of our time, it'd been better if I hadn't met you right now (You and I)
Head on my thigh (Oh), said you been trying to get it right, day and night (You and I)
Ahead of our time, it'd been better if I hadn't met you right now

Tip of the hat, top of the morning
Skip in the step, hop in the foreign
Mom in New York, Pap' in New Orleans
Wishin' it was, but it's nothing important
Always in love, always exploring
Always in touch, always recording
Pick up the phone, Hollywood calling
That's that PST PTSD

Head on my thigh, said you been trying to get it right, day and night (You and I)
Ahead of our time, it'd been better if I hadn't met you right now (You and I)
Head on my thigh (Oh), said you been trying to get it right, day and night (You and I)
Ahead of our time, it'd been better if I hadn't met you right now (Ooh why)

I was supposed to know (Did love waste us, will we be in love anymore)
I was supposed to know better (Don't you know you'll be moving at the speed of light)
I was supposed to know better (Did love waste us, will we be in love anymore)
You'll be moving at the speed of light
Will you love me when the stars align

Led you on, I wish I hadn't met you yet
I wish you wasn't in college
Led you on, I wish I hadn't met you yet
I wish I wasn't in love
Led you on, I wish I hadn't met you yet
Is it human eyes, universities and problems? Woah
Led you on, I wish I hadn't met you yet
I wish hadn't met you yet

Head on my thigh, said you been trying to get it right, day and night
Ahead of our time, it'd been better if I hadn't met you right now (if I let you back in)
Head on my thigh, said you been trying to get it right, day and night (if I let you back in)
Ahead of our time, it'd been better if I hadn't met you right now

If I let you distract me, would you still be there for me to
Distract you when I'm done writing all of my wrongs on paper
Baby, this is our paper, you can write your paper later
If I let you
Hold this bag, would you still be proud of me without this tag?

Would you still be here if it weren't my year?
Or would you disappear back to the dorm rooms and future doctor?

If I let you back in, is the same thing gonna happen?
'Cause the way you actin' sorta seems like a distraction
If I let you back in, if I let you

I've been away so long that you don't even want my love
Baby, I'm sorry (So just get in the car and pick a star, wherever you are and let us sing to you)
I've been away so long that you don't even want my love
Baby, I'm sorry (So just get in the car and get the aux, sit in the dark and let me sing for you)
