

UR TURN

Lido

Didn't wanna do too much, now we don't keep in touch
I can't even lie though baby, it still got me fucked up
Said I didn't do you bad, but I don't know where you at
Tell me what it means to know that I'm a different man?
I've been humbled again, and again, and shortcome by pride
Picked this crazy life, with these lonely nights
Fuck my name in lights, damn near killed my family life
And just got sick of giving me what I didn't deserve
Now it's your turn

Ouwee, she glowed up on me
No, I'm not salty, babygirl do ya thing
Nighttime, when you feeling lonely...
Girl you know where I be

Yea you know where I be
Know damn well you can still slide up on me
Told you, we don't gotta be on no freak...
Just some personal shit, after working and shit
Know you gigging a lot, more rehearsals and shit
Traveled round the world a lil bit
Yea I been worried a lil bit since you made some new friends
Has it just been too long? Or are you not convinced
Cause I'm still smellin' like dope and rockin' dirty vans
You don't wanna get hurt again

Ouwee, she glowed up on me
No, I'm not salty, babygirl do ya thing
Nighttime, when you feeling lonely...
Girl you know where I be

Cause I'm still smellin' like dope and rockin' dirty vans
You don't wanna get
