

Cut & Run

Lifhouse

It was us against the world, see
You and me are still alive and we're still kicking
We were crawling from the ashes of the city
That was burning down since both of us were babies

And we've been down
We've been above
If it's a dream
Don't wake us up

It was us against the world, see
We're still alive and we're still kicking
You say you've won
We call your bluff

Let's go!
We're kicking off the dust!
Let's go!
We're burning like the midday sun!
I think it's time to cut and run

Let's go!
We're shaking off the rust!
Let's go!
I think it's time to cut and run
I think it's time to cut and run

We were trying to find our sea legs
Tidal waves crashing on the shores in our heads
Can't ever worry about the 'He said, she said'
Drowning out all the noise of all that we've read

And if we believe
We can't make it up
And if it's a dream
You can't wake us up

Let's go!
We're kicking off the dust!
Let's go!
We're burning like the midday sun!
I think it's time to cut and run

Let's go!
Shaking off the rust!
Let's go!
I think it's time to cut and run
I think it's time to cut and run

Let's go!
We're kicking off the dust!
Let's go!
We're burning like the midday sun!
I think it's time to cut and run

Let's go!
Shaking off the rust!

Let's go!
I think it's time to cut and run
I think it's time to cut and run

Let's go!
We're kicking off the dust!
Let's go!
We're burning like the midday sun!
I think it's time to cut and run

Let's go!
Shaking off the rust!
Let's go!
I think it's time to cut and run
I think it's time to cut and run
