

# Don't Wake Me When It's Over

Lifehouse

One, two, three, four

There's so much more than time, in the life we live  
With so much more to love, than we can give  
You say a hard rain's gonna fall, but I'm not afraid

I'm floating in my mind, as the world gets colder  
Frozen, like a star don't wake me when it's over  
Breakdown, all around the world is off my shoulder  
I'm falling with the tide don't wake me when it's over now

Silence is the only sound, that I want to hear  
In the space where we are now, everything is clear  
They say the trouble's on the way, but I'm not afraid

I'm floating in my mind, as the world gets colder  
Frozen, like a star don't wake me when it's over  
Breakdown, all around the world is off my shoulder  
I'm falling with the tide don't wake me when it's over now

I'm floating in my mind, as the world gets colder  
Frozen, like a star don't wake me when it's over  
Running out of time, as the sun gets closer  
Fading far behind, yesterday grows older  
Breakdown, all around the world is off my shoulder  
I'm falling with the tide don't wake me when it's over now
