

# Nobody Listen

Lifhouse

Future lives in the mind  
While we fall from behind  
Missing light from the trees  
Missing you, look at me  
From a thought to a sound  
From a fear we expound  
Give it life  
Make it breathe  
Spinning wheels  
Into words we believe

Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Oh Ohh Oh

Hear the thunder and rain  
Feel our heart filled with pain  
Travel through time and space  
Where did love lose it's place  
Can we find who we are  
If we stare at a star  
In the silence, it screams  
There is nothing that is as it seems

Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Oh Ohh Oh (2x)

Can we find who we are  
If we stare at a star?  
In the silence it screams  
There is nothing that is as it seems

Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Oh Ohh Oh (3x)
