

## Left Right Left

Lifer

No idea  
If it's here or it's invisible  
Stoke the fear  
Left, right, left  
Media  
Designed to divide and conquer us  
We separate, we separate  
Left, right, left (left, right, left)

Can something so small  
Be the reason we fall?

We know we've gone too far  
To cover up these scars  
Will it all turn around?

No one cares  
No fear, we're invincible  
Unaware  
Left, right, left  
Billionaires  
Bullshit is being sold to us  
Manipulate and aggravate  
Left, right, left (left, right, left)

Can something so small  
Be the death of us all?

We know we've gone too far  
To cover up these scars  
Will it all turn around?  
(We're always too late)  
We know we've gone too far  
To cover up these scars  
Will it all turn around?

We know we've gone too far  
To cover up these scars  
Will it all turn around?  
(We're always too late)  
We know we've gone too far  
To cover, to cover up our scars

Will it all turn?  
Will it all turn  
Turn around?
