

Saints and Sinners

Liferuiner

You're a dead scene
Time will come and watch you fade away
You'll fade away, you're not the same
Through all of these scars
I still remain
Through trials and stipulations
Where I, I traded in my faith in you
I won't turn away, you are nothing
You're addiction is killing you
You've fled your life, so have we
You're addiction is killing you
You fucked your life
Keep it away
Away from me
You're a dead scene
