

I Hate Myself

[Light The Torch](#)

Frozen unmoving
Silence says the words that I can never say
Heartless assuming
Swallowing the pain again like yesterday

Stars align, destroy the grand design

Just look away
The truth's a secret I will never tell
Now turn away
I know you hate me like I hate myself

Live with incisions
Speak while I am watching all the wounds appear
Hopeless decisions
Blood can leave a brighter trail instead of tears

Voices heard, this is what I deserve

Just look away
The truth's a secret I will never tell
Now turn away
I know you hate me like I hate myself

I can see it
The ugly truth
The ugly truth behind your eyes
I know you hate me
I know you hate me

Just look away
The truth's a secret I will never tell
Now turn away
I know you hate me like I hate myself

Just look away
I'll make you hate me like I hate myself
