

Pull My Heart Out

[Light The Torch](#)

I only need my reflection to see you
And your pain is written on my face
The walls are painted in anguish
It's our fate and the guards
That will not let you escape

My burning to see you wasting
And I am helpless at my best
Remember the sun stopped burning
The day you laid this world to rest

I only hope that I can remember
The dreams of you alive and awake

My burning to see you wasting
And I am helpless at my best
Remember the sun stopped burning
The day you laid this world to rest

Don't let me see your tears
Each shrill, it pulls my heart out
Don't let me see your tears
My love, it will not break now

My burning to see you wasting
And I am helpless at my best
Remember the sun stopped burning
The day you laid this world to rest

I'll never forget you
I'll never forget you
I'll never forget
I'll never forget
The day you laid this world to rest
