

I Will Never

Light Up The Sky

How many words do I have to say?
How many times did you walk away?
I wanna feel, I wanna feel like I'm your only one
And now I'm lost under all the pressure
Where are you now?
I'm sinking down

And I won't fall in love
Because I just wanna let you know that

I will never, I will never
I'll never ever feel the same
I will never, I will never
I'll never ever win this game
I will never find a love like you again
Cause I wanna feel you one last time

Yeah yeah whoa-oh-oh
You one last time

I'm sick of everything you've done to me
But somehow I can't find a way to let you go

And I won't fall in love
Because I just wanna let you know that

I will never, I will never
I'll never ever feel the same
I will never, I will never
I'll never ever win this game
I will never find a love like you again
Cause I wanna feel you one last time

You know I like, like, like when you look at me
It never stops, never stops cause it's just a dream
You know I like, like, like when you look at me
It never stops, never stops cause it's just a dream

You wanna go go go every time that you see
You see me me me begging down on my knees
So just wait wait wait and listen to me
Just listen to me

Cause I don't wanna feel alone
And when I'm with you my heart just turns to gold
Cause I don't wanna feel alone
So just take me away, take me away
Oh, take me away

I will never, I will never
I will never ever feel the same
I will never, I will never
I will never ever win this game
I will never find a love like you again
Cause I wanna feel you one last time
Cause I wanna feel you one last time

Yeah yeah whoa-oh-oh
You one last time
