

Over The River And Through The Woods

Lightning Bolt

I want your face
I want your face
I want your face
Hahaha

I want your face
Hahaha
Hahaha
Hahaha

You want to break down our world
Our world will shred you to tears

Hahaha
I want your face
I want your face

You want to break down our world
Our world will shred you to tears

You, I want your face
You really want to break
Break down our world
Our world will shred
You to tears
You really want to break it
Break down our world
You, when you die
They will come, come on down
Come on

Hahaha
Hahaha

You, when you come
You, when you die
Listen, when you die
When they take all you left behind
You, you and your soul
You will pay
When the lions die
We're coming down
We'll come to destroy

Alright
