

## Almost Had Me

Lights

You were my halogen, guiding me home  
My only weapon when I was alone  
You were a big city, one I got lost in  
And when you spoke with me, I fell open  
I fell open  
But did you know that cost when you broke your promise?  
(I wasn't prepared)  
That when you bombs went off they would come down on us  
I was a knife in a gunfight  
And I fought so madly  
You were a wolf in the daylight  
And you almost had me  
And you almost had me  
I thought you were showing all your colors  
But you were in sheep's clothing  
A mind of another  
Can a slave reach freedom?  
Can a captive take hold of what they believe in?  
But did you know that cost when you broke your promise?  
(I wasn't prepared)  
That when you bombs went off they would come down on us  
I was a knife in a gunfight  
And I fought so madly  
You were a wolf in the daylight  
And you almost had me  
With a blindside  
And it hurt so badly  
You were a wolf in the daylight  
And you almost had me  
I guess I knew when your heart stop beating  
I'd never let you sink your teeth in  
I guess I knew when your heart stop beating  
I'd never let you sink your teeth in  
Oh-oh-oh-oh-oh-oh  
Oh-oh-oh (you almost had me)  
Oh-oh-oh-oh-oh-oh  
Oh-oh-oh (and you almost had me)  
I guess I know when your heart stop beating (oh-oh-oh)  
And you almost had me  
I guess I knew when your heart stop beating (oh-oh-oh)  
I was a knife in a gunfight  
And I fought so madly  
You were a wolf in the daylight  
And you almost had me
